

FREQUENTLY ASKED QUESTIONS FOR PROFESSIONAL GROUPS

- **How do I schedule a program?**

We book programs throughout the year. Please contact our Director of Adventure Program Sam Griswold by phone or email to start planning your Ketcha experience! You can reach Sam at sgriswold@campketcha.org or 207-883-8977 ext 104.

- **How long is a program?**

We book typically half day (3 hour) programs and full day (6 hour) ropes course programs. We also offer half day plus programs which are 4 ½ hours; which fit well when pairing with a regular work day. Our programs can also be tailored to complement your staff training with activities throughout your training day.

- **Can we rent your facility for our training?**

Professional groups can rent our conference room, Great Room, and/or our outdoor pavilion for additional training space to complement the ropes course or adventure programming.

- **What about food and beverages?**

Professional groups can choose to bring their own food and have access to our kitchen or outdoor gas or charcoal grill. If you choose to serve alcohol after your program, you will need to obtain a license before the event which we are happy to assist with. We also are happy to arrange food for your event. Please talk with us about arranging options that would fit with your budget and group size.

- **Who will work with our group?**

Your group will work with trained ropes course facilitators' familiar with our low and high ropes course and the dynamics at play in working with groups. We also work closely with Collaboration Consulting to deliver professional trainings with qualitative and quantitative assessment.

- **How safe is the Course?**

Our course was built by Project Adventure in 1993 and is inspected annually by an outside vendor. We work with Wingspeed Adventures to ensure that our course is safe and up to date.

- **What should we do about bad weather?**

We run programs rain or shine and advise groups to plan accordingly. Your group will be notified if the weather conditions do not permit outdoor programming due to extreme weather conditions. Indoor activity space is dependent upon the size of your group and the time of the activities and will be discussed upon booking a program.

- **How should we dress?**

Dress comfortably in clothes that you are able to get dirty and have fun in! We recommend dressing in layers, as we have activities that are indoors, in open fields and in our wooded area.

- **What else should we bring?**

We suggest a day pack, sunglasses or rain jacket, an extra layer, hat, water bottle, snacks, and a camera!
